

Dear Homeowners,

We want to inform you that repairs to the nature trail will begin soon (exact start date to be determined). In preparation for the work, the contractor will need access to certain areas for equipment and materials.

Details:

- **Starting Monday, 08/25/25:** Gravel and equipment will be staged in the **four visitor parking spaces across from 9511 Brigadoon**. Please ensure these spaces are cleared and available to the contractor.
- **During the project:** Once work begins, the contractor will need access to **parking space #42**, as well as the visitor space between parking space #42 and the grass island. This will give the equipment good clearance and visibility.

We appreciate your cooperation in keeping these spaces clear to help the project proceed smoothly and safely.

Thank you for your understanding and assistance!
